Independent auditor's report to the shareholders of Aramex PJSC

Report on the audit of the consolidated financial statements

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Aramex PJSC (the "Company") and its subsidiaries (together the "Group") as at 31 December 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards.

What we have audited

The Group's consolidated financial statements comprise:

- the consolidated statement of financial position as at 31 December 2023;
- the consolidated statement of profit or loss for the year then ended;
- the consolidated statement of comprehensive income for the year then ended; •
- the consolidated statement of changes in equity for the year then ended; •
- the consolidated statement of cash flows for the year then ended; and •
- the notes to the consolidated financial statements, comprising material accounting policy information and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) and the ethical requirements that are relevant to our audit of the consolidated financial statements in the United Arab Emirates. We have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Independent auditor's report to the shareholders of Aramex PJSC (continued)

Our audit approach

Overview

Key Audit Matters

•

•

Revenue recognition; and Impairment of goodwill.

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated financial statements. In particular, we considered where the Directors made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent auditor's report to the shareholders of Aramex PJSC

Report on the audit of the consolidated financial statements

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Aramex PJSC (the "Company") and its subsidiaries (together the "Group") as at 31 December 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards.

What we have audited

The Group's consolidated financial statements comprise:

- the consolidated statement of financial position as at 31 December 2023;
- the consolidated statement of profit or loss for the year then ended;
- the consolidated statement of comprehensive income for the year then ended; •
- the consolidated statement of changes in equity for the year then ended; •
- the consolidated statement of cash flows for the year then ended; and •
- the notes to the consolidated financial statements, comprising material accounting policy information and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) and the ethical requirements that are relevant to our audit of the consolidated financial statements in the United Arab Emirates. We have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our audit approach

Overview

Key Audit Matters

•

•

Revenue recognition; and Impairment of goodwill.

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated financial statements. In particular, we considered where the Directors made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

4

Independent auditor's report to the shareholders of Aramex PJSC (continued)

Our audit approach (continued)

Key audit matters (continued)

| Key audit matter | How our audit addressed the key audit matter |
|--|--|
| Revenue recognition The Group focuses on revenues as a key performance measure and as a driver for growth and expansion. For the year ended 31 December 2023, the Group had revenue of AED 5.7 billion (2022: AED 5.9 billion) - Note 26. Due to the materiality of the amounts involved, diversity of the Group's geographical footprint, and susceptibility of such revenues to misstatements and fraud risk, we consider revenue recognition as a key audit matter. | Our audit procedures performed in relation to revenue recognition included: considering the appropriateness and testing the consistency of the Group's revenue recognition policies; assessing the compliance of such policies with the applicable IFRS Accounting Standards; reviewing the control environment and on a sample basis, testing internal controls over revenue recognition; obtaining a representative sample of transactions and testing their occurrence, accuracy and recognition; selecting a sample of transactions before and after the year end to verify the appropriateness of revenue recognition in their corresponding period; performing substantive analytical procedures to identify inconsistencies and/or unusual movements during the year; and assessing the completeness and accuracy of disclosures within the consolidated financial statements in accordance with IFRS Accounting Standards. |
| Impairment of goodwill As at 31 December 2023, the Group had goodwill of AED 1,750 million (2022: AED 1,758 million) - Note 7. As required by IAS 36 – 'Impairment of Assets', the Group is required to annually test goodwill for impairment. Management's assessment process is complex and highly judgmental, and is based on assumptions, in particular the discount rate and growth rate estimates which are affected by expected future market or economic conditions. Any changes in assumptions could result in impairment of the goodwill. Accordingly, we consider goodwill impairment to be a key audit matter. | Our audit procedures performed in relation to the impairment assessment of goodwill included: testing the integrity of the model and on a sample basis the discounted cash flow model and assessed that the methodology used is consistent with IAS 36; assessing the appropriateness of forecast revenue and net operating profit before taxes growth rates through comparison to historical data; assessing the appropriateness of weighted average cost of capital through comparison with external economic benchmarking data to determine if it provided corroborative or contradictory evidence in relation to management's assumptions; involving our internal valuation expert, we assessed the discount rate assumptions and the mathematical accuracy of the impairment models and the methodology applied by management for consistency with the requirements of IAS 36; and assessing the completeness and accuracy of disclosures within the consolidated financial statements in accordance with IFRS Accounting Standards. |

aramex

Independent auditor's report to the shareholders of Aramex PJSC (continued)

Other information

The Directors are responsible for the other information. The other information comprises the Report of the Directors (but does not include the consolidated financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report, and the Group's Annual Report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Group's Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of management and those charged with governance for the consolidated financial statements

The Directors are responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards and their preparation in compliance with the applicable provisions of the UAE Federal Decree Law No. (32) of 2021, and for such internal control as Directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent auditor's report to the shareholders of Aramex PJSC (continued)

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of . accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities . or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

aramex

pwc

Independent auditor's report to the shareholders of Aramex PJSC (continued)

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

Further, as required by the UAE Federal Decree Law No. (32) of 2021, we report that:

- we have obtained all the information we considered necessary for the purposes of our audit; (i)
- the consolidated financial statements have been prepared and comply, in all material respects, (ii) with the applicable provisions of the UAE Federal Decree Law No. (32) of 2021;
- (iii) the Group has maintained proper books of account;
- the financial information included in the Report of the Directors is consistent with the books of (iv) account of the Group;
- notes 10, 11, and 12 to the consolidated financial statements disclose the Group's investments (v) in shares during the year ended 31 December 2023;
- (vi) note 31 to the consolidated financial statements discloses material related party transactions, and the terms under which they were conducted;
- (vii) based on the information that has been made available to us, nothing has come to our attention which causes us to believe that the Group has contravened during the year ended 31 December 2023 any of the applicable provisions of the UAE Federal Decree Law No. (32) of 2021, or in respect of the Company, its Articles of Association which would materially affect its activities or its financial position as at 31 December 2023; and
- (viii) note 28 to the consolidated financial statements discloses the social contributions made during the year ended 31 December 2023.

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023**

General information 1

Aramex PJSC (the "Parent Company" or "Company") was established as a Public Joint Stock Company on 15 February 2005 and is registered in the Emirate of Dubai, United Arab Emirates under the Federal Decree Law No. (32) of 2021. The consolidated financial statements of the Company as at 31 December 2023 comprise the Parent Company and its subsidiaries (together referred to as the "Group" and individually as "Group entities").

The Parent Company was listed on the Dubai Financial Market on 9 July 2005.

The principal activities of the Company and its subsidiaries are investment in the freight, express, logistics and supply chain management businesses through acquiring and owning controlling interests in companies in the Middle East and other parts of the world.

The Parent Company's registered office address is Building and Warehouse No. 3, Um Rammool, Dubai, United Arab Emirates.

As at 31 December 2023, the major shareholders of Aramex PJSC are GeoPost, the express parcel arm of French Groupe La Poste and Abu Dhabi Ports Company PJSC ("ADP"), a subsidiary of Abu Dhabi Developmental Holding Company ("ADQ") which own 28% and 22.32% of Aramex PJSC's issued share capital, respectively.

The consolidated financial statements were authorised for issue by the Board of Directors on 8 February 2024.

Material accounting policies 2

2.1 **Basis of preparation**

The consolidated financial statements of the Group have been prepared in accordance with IFRS Accounting Standards. IFRS Accounting Standards comprise the following authoritative literature:

- IFRS Accounting Standards;
- IAS Standards; and
- Interpretations developed by the IFRS Interpretations Committee (IFRIC Interpretations) or its predecessor body, the Standing Interpretations Committee (SIC Interpretations).

The consolidated financial statements comply with IFRS as issued by the International Accounting Standards Board (IASB), and applicable requirements of UAE Federal Decree Law No. (32) of 2021.

The accounting policies used in the preparation of these consolidated financial statements are consistent with those audited annual consolidated financial statements for the year ended 31 December 2022, except when otherwise indicated.

The consolidated financial statements are presented in UAE Dirhams (AED), being the functional currency of the Parent Company and all values are rounded to the nearest thousand (AED "000"), except when otherwise indicated.

The consolidated financial statements have been prepared under a historical cost basis adjusted for the effects of inflation where entities operate in hyperinflationary economies, except for financial assets at fair value through other comprehensive income at fair value and defined benefit pension plans that have been measured at the present value of future obligations using the Projected Unit Credit Method and assets held for sale which are measured at the lower of carrying amount and fair value less costs to sell. The material accounting policies applied in the preparation of these consolidated financial statements are set out below.

The Lebanese and Turkish economies are considered to be hyperinflationary. Accordingly, the results, cash flows and financial position of the group's subsidiaries, Aramex Lebanon S.A.L. and Aramex International Hava Kargo ve Keye Anonim Sirketyi have been expressed in terms of measuring unit current at the reporting date.

Material accounting policies (continued) 2

2.2 Changes in accounting policies

New and revised IFRS accounting standards applied in the preparation of the consolidated financial statements

The following new and revised IFRS, which became effective for annual periods beginning on or after 1 January 2023, have been adopted in these consolidated financial statements. The application of these revised IFRS, except where stated, have not had any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

- IFRS 17, 'Insurance contracts' This standard replaced IFRS 4, which permitted a wide variety of (a) practices in accounting for insurance contracts. IFRS 17 fundamentally changes the accounting by all entities that issue insurance contracts.
- Narrow scope amendments to IAS 1. Practice statement 2 and IAS 8 The amendments aim to (b) improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.
- (c) Amendment to IAS 12 deferred tax related to assets and liabilities arising from a single transaction - These amendments require companies to recognise deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences.
- Amendment to IAS 12 International tax reform These amendments give companies temporary (d)relief from accounting for deferred taxes arising from the Minimum Tax Implementation Handbook international tax reform. The amendments also introduce targeted disclosure requirements for affected companies.

New and revised IFRS accounting standards issued but not yet effective and not early adopted

- Amendment to IFRS 16 Leases on sale and leaseback (effective 1 January 2024) These amendments include requirements for sale and leaseback transactions in IFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.
- *(b)* Amendment to IAS 1 – Non-current liabilities with covenants (effective 1 January 2024) - These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments also aim to improve information an entity provides related to liabilities subject to these conditions.
- Amendment to IAS 7 and IFRS 7 Supplier finance (effective 1 January 2024) These (c)amendments require disclosures to enhance the transparency of supplier finance arrangements and their effects on an entity's liabilities, cash flows and exposure to liquidity risk. The disclosure requirements are the IASB's response to investors' concerns that some companies' supplier finance arrangements are not sufficiently visible, hindering investors' analysis.
- Amendments to IAS 21 Lack of Exchangeability (effective 1 January 2025) An entity is (d)impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations.

aramex

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

Material accounting policies (continued) 2

Changes in accounting policies (continued) 2.2

New and revised sustainability disclosure standards issued but not yet effective and not early adopted

- IFRS S1, 'General requirements for disclosure of sustainability-related financial information (a)(effective 1 January 2024, subject to endorsement by local jurisdictions) - This standard includes the core framework for the disclosure of material information about sustainability-related risks and opportunities across an entity's value chain.
- *(b)* IFRS S2, 'Climate-related disclosures' (effective 1 January 2024, subject to endorsement by local jurisdictions) - This is the first thematic standard issued that sets out requirements for entities to disclose information about climate-related risks and opportunities.

The Group is currently assessing the impact of these standards, and amendments on the future consolidated financial statements of the Group and intends to adopt these, if applicable, when they become effective.

2.3 Basis of consolidation

Subsidiaries

The consolidated financial statements comprise of the financial statements of the Company and its subsidiaries as at 31 December 2023 and 31 December 2022. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group:

- power over an investee.
- is exposed, or has rights, to variable returns from its involvement with the investee, and
- the ability to use its power over the investee to affect the amount of the investor's returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders and other parties;
- rights raising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns and previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and/or ceases when the Group loses control over the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss of each component of other comprehensive income is attributable to the owners of the Group and to the non-controlling interests. Total comprehensive income of subsidiaries is attributable to the owners of the Group and to the non-controlling interest even if this results in the non-controlling interests having a deficit balance

When necessary, adjustments are made to the financial statements of the subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intragroup assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Changes in the Group's ownership interest in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the noncontrolling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to shareholders of the Parent.

Material accounting policies (continued) 2

Basis of consolidation (continued) 2.3

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value, with the change in carrying amount recognised in consolidated statement of profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified the consolidated statement of profit or loss.

2.4 **Property and equipment**

Property and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property and equipment and borrowing costs for longterm construction projects if the recognition criteria are met. When significant parts of property and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the consolidated statement of profit or loss during the financial period in which they are incurred.

Except for capital work in progress and land, depreciation is calculated on a straight-line basis, the estimated useful lives of the assets is as follows:

| 4-7 years |
|------------|
| 8-50 years |
| 5-10 years |
| 15 years |
| 3-7 years |
| 3-5 years |
| 4-5 years |
| |

Depreciation relating to the property and equipment of Aramex Lebanon S.A.L. and Aramex International Hava Kargo ve Keye Anonim Sirketyi are based on restated amounts, which have been adjusted for the effects of hyperinflation.

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount, being the higher of their fair value less costs to sell and their value in use.

An item of property and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and carrying amount of the asset) is included in the consolidated statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

The leasehold improvements range represents the shorter between the lease term and the useful life of the asset.

aramex

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

Material accounting policies (continued) 2

2.5 **Business combinations and goodwill**

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the:

- fair values of the assets transferred;
- liabilities incurred to the former owners of the acquired business;
- equity interests issued by the Group;
- fair value of any asset or liability resulting from a contingent consideration arrangement; and
- fair value of any pre-existing equity interest in the subsidiary.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognises any noncontrolling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the noncontrolling interest's proportionate share of the acquired entity's net identifiable assets with any acquisitionrelated costs are expensed as incurred.

The excess of the consideration transferred, amount of any non-controlling interest in the acquired entity, and acquisition-date fair value of any previous equity interest in the acquired entity over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised directly in the consolidated statement of profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value, with changes in fair value recognised in the consolidated statement of profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in the consolidated statement of profit or loss.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in the consolidated statement of profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

2.6 Other intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

The useful lives of these intangible assets are assessed as either finite or indefinite.

Material accounting policies (continued) 2

Other intangible assets (continued) 2.6

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the consolidated statement of profit or loss in the expense category that is consistent with the function of the intangible assets.

Intangible assets with finite lives are amortised over their economic lives as follows:

| Customer lists and other intangible assets with definite useful life | 10-30 years |
|--|-------------|
| Other intangible assets | 7 years |
| Brand | 20 years |

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of profit or loss when the asset is derecognised.

2.7 Investments in associates and joint arrangements

(i) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (Note 2.7 - iii), after initially being recognised at cost.

(ii) Joint arrangements

Under IFRS 11 'Joint Arrangements', investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Group has only joint ventures.

Joint ventures

Interests in joint ventures are accounted for using the equity method (Note 2.7 - iii), after initially being recognised at cost in the consolidated statement of financial position.

(iii) Equity method

Under the equity method, the investment in an associate or a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment separately.

The consolidated statement of profit or loss reflects the Group's share of the results of operations of the associate or joint venture. Any change in other comprehensive income (OCI) of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

Where the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Investments in associates and joint arrangements (continued) 2.7

Equity method (continued) (iii)

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the consolidated statement of profit or loss and represents profit or loss after tax and non-controlling interests in the associate or joint venture.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognises the loss as 'Share of profit of an associates and joint ventures' in the consolidated statement of profit or loss.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in the consolidated statement of profit or loss.

2.8 Prepaid agency fees

Amounts paid in advance to agents to purchase or alter their agency rights are accounted for as prepayments. As these amounts are paid in lieu of annual payments they are expensed to consolidated statement of profit or loss over the period equivalent to the number of years of agency fees paid in advance.

2.9 Impairment of non-financial assets

Further disclosures relating to impairment of non-financial assets are provided in the following notes:

| Disclosures for significant assumptions | Note 4 |
|---|--------|
| Goodwill | Note 7 |
| Other intangible assets | Note 8 |

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. A long term growth rate is calculated and applied to project future cash flows after the fifth year.

irment losses of continuing operations are recognised in the consolidated statement of profit or loss in expense categories consistent with the function of the impaired asset.

Material accounting policies (continued) 2

Impairment of non-financial assets (continued) 2.9

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the consolidated statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Goodwill is tested for impairment annually as at 31 December and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

2.10 Restricted cash, margins and fixed deposits

Restricted cash, margins and fixed deposits in the consolidated statement of financial position comprise restricted cash and long-term deposits with maturity of more than three months. Restricted cash represents cash held at Lebanese banks which can be withdrawn at unfavourable rates.

2.11 Cash and cash equivalents

Cash and bank equivalents in the consolidated statement of financial position comprise cash at banks, cash on hand and short-term deposits with a maturity of three months or less which are subject to an insignificant risk of changes in value.

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents includes cash on hand, deposits held with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

2.12 Accounts receivable

Accounts receivable are amounts due from customers for services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets. Accounts receivable are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the accounts receivable with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less provision for impairment.

The Group's accounts receivable are subject to the expected credit loss model. The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all accounts receivable. To measure the expected credit losses, accounts receivable have been grouped based on shared credit risk characteristics and the days past due.

Accounts receivable are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group, and a failure to make contractual payments for a period of greater than 365 days past due.

Impairment losses on accounts receivable are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

aramex

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

Material accounting policies (continued) 2

2.13 Financial assets

Financial assets are classified as follows:

- those to be measured subsequently at fair value (either through OCI or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in the consolidated statement of profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

- Classification (a)
- Investments at fair value through other comprehensive income (i)

Investments at fair value through other comprehensive income, are those which are designated as such or do not qualify to be classified as designated at fair value through profit or loss or amortised cost. Investments at fair value through other comprehensive income include certain equity and debt instruments. These investments may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices. Financial assets at fair value through other comprehensive income comprise:

Equity securities which are not held for trading, and which the Group has irrevocably elected at initial recognition are recognised in this category. These are strategic investments, and the Group considers this classification to be more relevant.

Debt securities where the contractual cash flows are solely principal and interest and the objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets.

Financial assets at amortised cost (ii)

Financial assets at amortised cost are non-derivative financial assets with fixed or determinable payments. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period.

The Group classifies its financial assets as at amortised cost only if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cash flows, and the contractual terms give rise to cash flows that are solely payments of principal and interest.
- Initial recognition and subsequent measurement *(b)*

The Group recognises on the trade date the regular way purchases and sales of financial assets which is the date on which the Group commits to purchase or sell the asset.

At initial recognition the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in the consolidated statement of profit or loss.

Debt instruments (i)

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in the consolidated statement of profit or loss and presented in other income. Impairment losses are presented as separate line item in the consolidated statement of profit or loss.

Material accounting policies (continued) 2

- 2.13 **Financial assets** (continued)
- Initial recognition and subsequent measurement (continued) *(b)*
- (i) Debt instruments (continued)

FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in the consolidated statement of profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the consolidated statement of profit or loss and recognised in other income.

Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other income and impairment expenses are presented as separate line item in the consolidated statement of profit or loss.

FVPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in the consolidated statement of profit or loss and presented net within other income in the period in which it arises.

(ii) Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to the consolidated statement of profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in the consolidated statement of profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in other income in the consolidated statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(c) Derecognition of financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised where:

- the Group's rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and
- either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On disposal of equity investments, any related balance within the FVOCI reserve is reclassified to retained earnings.

2.14 Impairment and un-collectability of financial assets

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For accounts receivable, the Group applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables, see Note 3.1 for further details

aramex

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

Material accounting policies (continued) 2

2.15 Loans, borrowings and other financial liabilities

All financial liabilities are recognised initially at fair value, and in the case of loans and borrowings and payables, net of directly attributable transaction costs.

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in the consolidated statement of profit or loss when the liabilities are derecognised as well as through EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the consolidated statement of profit or loss.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms. or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit or loss.

2.16 Accounts payable and accruals

These amounts represent unsettled liabilities for goods and services provided to the Group prior to the end of financial year. These amounts are unsecured and are usually paid within 60 days of the date of recognition. Trade and other payables are presented as current liabilities, except those whose payment is due after 12 months of the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.17 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the consolidated statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.18 Employees' end of service benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the consolidated statement of financial position.

A provision is made for the estimated liability for employees' entitlement to annual leave and leave passage as a result of services rendered by eligible employees up to the reporting date. The provision relating to annual leave and leave passage is considered as a current liability.

(ii) Other long-term employee benefit obligations

In some countries, the Group also has liabilities for long service end of service benefits that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period, using the projected unit credit method.

Material accounting policies (continued) 2

2.21 Revenue recognition

The Group recognises revenue from contracts with customers based on five step model as sets out in IFRS 15 -Revenue from contracts with customers:

- Step 1: Identify the contract(s) with a customer;
- Step 2: Identify the performance obligations in the contract;
- Step 3: Determine the transaction price;
- Step 4: Allocate the transaction price to the performance obligations in the contract; and •
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation. •

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers control of a product or service to a customer.

Revenue represents the value of services rendered to customers and is stated net of discounts and sales taxes or similar levies.

The standards require that revenue be recognised as a company satisfies a performance obligation by transferring control of a good or service. A performance obligation can be satisfied over time or at a point in time.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty or discounts. The Group assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Group has concluded that it is acting as a principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements, has pricing latitude and is exposed to credit risks.

The specific recognition criteria described below must also be met before revenue is recognised.

Express and shop 'n' ship services revenue

The Group provides courier and express to businesses and private customers. Delivery occurs when the packages have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the end user, and either the end user has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied. It is therefore accounted for as a single performance obligation satisfied over time and revenue is recognised over the performance period.

Freight forwarding revenue

The Group provides transportation services to businesses and private customers. Delivery occurs when the packages have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the end user, and either the end user has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied. It is therefore accounted for as a single performance obligation satisfied over time and revenue is recognised over the performance period.

Revenue from logistics services

The Group provides logistics and warehousing services to customers. Delivery of service occurs when the contractual terms of agreement are satisfied, and either the end user has accepted the services in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

aramex

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

Material accounting policies (continued) 2

Revenue recognition (continued) 2.21

Revenue from logistics services (continued)

All the contracts and work orders include a single deliverable, and does not include an integration service and could not be performed by another party. It is therefore accounted for as a single performance obligation satisfied over time and revenue is recognised over the performance period.

2.22 Interest income

Interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability. Interest income is included in finance income in the consolidated statement of profit or loss.

2.23 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2.24 Taxes

Current income tax

The Group provides for income taxes in accordance with IAS 12. As the Parent Company is incorporated in the UAE, profits from operations of the Parent Company are not subject to current income taxation. However, certain subsidiaries of the Parent Company are based in taxable jurisdictions and are therefore liable to tax. Income tax on the profit or loss for the year comprises of current and deferred tax on the profits of these subsidiaries. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Deferred income tax is determined using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. Management periodically evaluates position taken in the tax returns with respect to situation in which applicable tax regulations are subject to interpretation and establishes provision where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a _ transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and _ interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

Material accounting policies (continued) 2

2.25 Leases (continued)

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payment that are based on an index or a rate;
- Amounts expected to be payable by the lessee under residual value guarantees;
- The exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that
- option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right of use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received,
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held • by the Group, which does not have recent third party financing, and
- makes adjustments specific to the lease, ie, term, country, currency and security.

The Group is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right of use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to the consolidated statement of profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right of use assets are initially measured at cost comprising the following:

- The amount of the initial measurement of lease liability,
- Any lease payments made at or before the commencement date less any lease incentives received, •
- Any initial direct costs, and •
- Restoration costs. •

Right of use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. Depreciation relating to Aramex Lebanon S.A.L. and Aramex International Hava Kargo ve Keye Anonim Sirketyi is based on restated amounts, which have been adjusted for the effects of hyperinflation. If the Group is reasonably certain to exercise a purchase option, the right of use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of equipment and vehicles and all leases of low-value assets are recognised on a straight-line basis as an expense in the consolidated statement of profit or loss. Short-term leases are leases with a lease term of 12 months or less.

Extension and termination options are included in a number of property and equipment leases across the Group. These are used to maximise operational flexibility in terms of managing the assets used in the Group's operations. The majority of extension and termination options held are exercisable only by the Group and not by the respective lessor.

aramex

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

Material accounting policies (continued) 2

2.26 Cash dividend

The Group recognises a liability to make cash or non-cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.27 Earnings per share

The Group presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of shares outstanding during the period. The weighted average number of ordinary shares outstanding during the period and for all periods presented is adjusted for the issue of bonus shares.

2.28 Discontinued operations

The Group classifies non-current assets and disposal groups as held for distribution to equity holders of the parent if their carrying amounts will be recovered principally through a distribution rather than through continuing use. Such non-current assets and disposal groups classified as held for distribution are measured at the lower of their carrying amount and fair value less costs to sell or to distribute. Costs to distribute are the incremental costs directly attributable to the distribution, excluding the finance costs and income tax expense.

The criteria for held for distribution classification is regarded as met only when the distribution is highly probable and the asset or disposal group is available for immediate distribution in its present condition. Actions required to complete the distribution should indicate that it is unlikely that significant changes to the distribution will be made or that the decision to distribute will be withdrawn. Management must be committed to the distribution expected within one year from the date of the classification.

Property and equipment and intangible assets are not depreciated or amortised once classified as held for distribution.

Assets and liabilities classified as held for distribution are presented separately as current items in the consolidated statement of financial position.

A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- Represents a separate major line of business or geographical area of operations;
- Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- Is a subsidiary acquired exclusively with a view to resale.

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the consolidated statement of profit or loss.

All other notes to the consolidated financial statements include amounts for continuing operations, unless otherwise mentioned.

2.29 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Material accounting policies (continued) 2

2.30 Fair value of financial instruments

The fair value of financial instruments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business on the consolidated statement of financial position date. For financial instruments where there is no active market, fair value is determined using valuation techniques. Such techniques may include using recent arm's length market transactions, reference to the current fair value of instruments that are substantially similar, discounted cash flow analysis or other valuation models.

2.31 Amortised cost of financial instruments

Amortised cost is computed using the effective interest method less any provision for impairment and principal repayment or discounts. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate.

2.32 Current versus non-current classification

The Group presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification. An asset as current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current

A liability is current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading, —
- It is due to be settled within twelve months after the reporting period, or _
- There is no unconditional right to defer the settlement of the liability for at least twelve months after _ the reporting period.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.33 Foreign currencies

The Group's consolidated financial statements are presented in AED, which is also the Parent Company's functional currency. For each entity, the Group determines the functional currency and items included in the consolidated financial statements of each entity are measured using that functional currency.

Also, when an entity's functional currency is the currency of a hyperinflationary economy, the entity shall restate its financial statements in accordance with IAS 29 before applying the translation method, except for comparative amounts that are translated into a currency of a non-hyperinflationary economy. When the economy ceases to be hyperinflationary and the entity no longer restates its financial statements in accordance with IAS 29, it shall use as the historical costs for translation into the presentation currency the amounts restated to the price level at the date the entity ceased restating its financial statements.

The results and financial position of foreign operations (which has the currency of a hyperinflationary economy) are translated into the presentation currency as follows:

All amounts (i.e. assets, liabilities, equity items, income and expenses, including comparatives) shall be translated at the closing rate at the date of the most recent statement of financial position, except that when amounts are translated into the currency of a non-hyperinflationary economy, comparative amounts shall be those that were presented as current year amounts in the relevant prior year financial statements (i.e. not adjusted for subsequent changes in the price level or subsequent changes in exchange rates).

aramex

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

Material accounting policies (continued) 2

2.33 **Foreign currencies** (continued)

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date of the transaction first qualify for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchange at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in the consolidated statement of profit or loss with the exception of monetary items that are designated as part of the hedge of the Group's net investment in a foreign operation. These are recognised in other comprehensive income until the net investment is disposed, at which time, the cumulative amount is reclassified to the consolidated statement of profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in other comprehensive profit or loss or the consolidated statement of profit or loss are also recognised in other comprehensive income or consolidated statement of profit or loss, respectively).

Group companies

On consolidation, the assets and liabilities of foreign operations are translated into AED's, at the rate of exchange prevailing at the reporting date and their consolidated statement of profit or loss are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the consolidated statement of profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

The results, cash flows and financial position of the group entities which are accounted for as entities operating in hyperinflationary economies and that have functional currencies different from the presentation currency of the group are translated into the presentation currency of its immediate parent at rates of exchange ruling at the reporting date. As the presentation currency of the group is that of a non-hyperinflationary economy, comparative amounts are not adjusted for changes in the price level or exchange rates in the current financial vear.

As a result of the deep economic and financial crisis in Lebanon, companies in Lebanon have been transacting in "Lebanese Pound" (LBP), "Lebanese Dollars" (US Dollars held in local banks that are subject to the restrictions on withdrawal) and "US Dollars" (referred to as "Fresh Dollars") at multiple exchange rates depending on the nature of transactions and stakeholders.

Management performed an assessment to identify the most appropriate rate to be used for the translation of foreign operations in Lebanon for the year ended 31 December 2023.

2.34 Hyperinflation

The financial statements (including comparative amounts) of the Group entities whose functional currencies are the currencies of hyperinflationary economies are adjusted in terms of the measuring unit current at the end of the reporting period.

Material accounting policies (continued) 2

2.34 Hyperinflation (continued)

As the presentation currency of the group or the company is that of a non-hyperinflationary economy, comparative amounts are not adjusted for changes in the price level in the current year. Differences between these comparative amounts and current year hyperinflation adjusted equity balances are recognised in other comprehensive income.

The carrying amounts of non-monetary assets and liabilities are adjusted to reflect the change in the general price index from the date of acquisition to the end of the reporting period. On initial application of hyperinflation prior period gains and losses are recognised directly in equity. An impairment loss is recognised in profit or loss if the restated amount of a non-monetary item exceeds its estimated recoverable amount.

Gains or losses on the net monetary position are recognised in the consolidated statement of profit or loss.

All items recognised in the consolidated statement of profit or loss are restated by applying the change in the general price index from the dates when the items of income and expenses were initially earned or incurred.

At the beginning of the first period of application, the components of equity, except retained earnings, are restated by applying a general price index from the dates the components were contributed or otherwise arose. These restatements are recognised directly in equity as an adjustment to opening retained earnings. Restated retained earnings are derived from all other amounts in the restated statement of financial position. If on initial application of hyperinflation accounting the restated value of the non-monetary assets exceed their recoverable amount, the amount in excess of the recoverable amount is recorded as a reduction in retained earnings. At the end of the first period and in subsequent periods, all components of equity are restated by applying a general price index from the beginning of the period or the date of contribution, if later.

All items in the statement of cash flows are expressed in terms of the general price index at the end of the reporting period.

The Lebanese and Turkish economies have been classified as hyperinflationary. Accordingly, the results, cash flows and financial position of the Group's subsidiaries; Aramex Lebanon S.A.L. and Aramex International Hava Kargo ve Keye Anonim Sirketyi have been expressed in terms of the measuring unit current at the reporting date. Impact of applying IAS 29 for the years ended 31 December 2023 and 31 December 2022 has been disclosed in each impacted financial statement line item note.

Financial risk management 3

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance as well as policies covering specific areas.

The Group's risk management is predominantly controlled by a central treasury and credit department under policies approved by the management. Group treasury identifies, evaluates and hedges financial risks in close co-operation with the group's operating units. The management provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

- (a) Market risk
- Foreign currency risk (i)

Foreign currency risk is the risk that the fair value of future cash flows of financial instruments will fluctuate because of changes in foreign currency exchange rates.

aramex

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

3 **Financial risk management** (continued)

- Financial risk factors (continued) 3.1
- *(a)* Market risk (continued)
- (i) Foreign currency risk (continued)

The Group is exposed to currency risk mainly on purchases and sales that are denominated in a currency other than the respective functional currencies of the Group entities, primarily the United States Dollar (USD), Euro (EUR), Egyptian Pound (EGP), Sterling (GBP), South African Rand (ZAR), Turkish Lira (TRY) and the Indian Rupee (INR). The currencies in which these transactions are primarily denominated are Euro, USD, ZAR, TRY and GBP. The Parent Company and a number of other Group entities' functional currencies are either the USD or currencies that are pegged to the USD. As a significant portion of the Group's transactions are denominated in USD, this reduces currency risk. The Group also has currency exposures to currencies that are not pegged to the USD.

Significant portion of the Group's trade payables and all of its foreign currency receivables, denominated in a currency other than the functional currency of the respective Group entities, are subject to risks associated with currency exchange fluctuation. The Group reduces some of this currency exposure by maintaining some of its bank balances in foreign currencies in which some of its trade payables are denominated.

The following table demonstrates the sensitivity to a reasonably possible change in the AED exchange rate, with all other variables held constant, of the Group's profit before tax (due to changes in the fair value of monetary assets and liabilities).

| | Changes in currency rate to AED % | Effect on profit before tax AED'000 |
|------|--|--|
| 2023 | | |
| EUR | +10 | (670) |
| INR | +10 | 402 |
| GBP | +10 | 2,552 |
| EGP | +10 | (88) |
| TRY | +10 | (4,448) |
| ZAR | +10 | (398) |
| 2022 | | |
| EUR | +10 | (862) |
| INR | +10 | 98 |
| GBP | +10 | 3,387 |
| EGP | +10 | (210) |
| TRY | +10 | (195) |
| ZAR | +10 | (33) |

The effect of decreases in exchange rates are expected to be equal and opposite to the effects of the increases shown.

(ii) Price risk

The Group is not exposed to price risk as the Group has not invested in listed securities.

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is exposed to interest rate risk on its interest bearing liabilities which carry variable interest rates (bank overdrafts, notes payable and term loans).

Term deposits issued at fixed interest rates expose the Group to fair value interest rate risk. The Group's management monitors the interest rate fluctuations on a continuous basis and acts accordingly.

- **Financial risk management** (continued) 3
- Financial risk factors (continued) 3.1
- Market risk (continued) (a)
- Interest rate risk (continued) (iii)

The sensitivity analysis calculates the effect of a reasonably possible movement in the interest rate on the consolidated statement of profit or loss:

| · | 2023 AED'000 | 2022 AED'000 |
|---------------------------|-----------------|-----------------|
| Variable rate instruments | | |
| +100 bps | (11,187) | (12,565) |
| - 100 bps | 11,187 | 12,565 |

As at the reporting date, the Group is primarily exposed to Risk Free Rate (RFR) rates which is subject to the interest rate benchmark reform, Bank Bill Swap Bid Rate (BBSY); main interest rate benchmark in Australia, Bank Bill Benchmark Rate (BKBM); main interest rate benchmark in New Zealand, Sterling Overnight Index Average (SONIA); main interest rate benchmark in the United Kingdom and Secured Overnight Financing Rate (SOFR); main interest rate benchmark in the United States of America.

(b) Credit risk

The Group is exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to meet an obligation.

Credit risk arises from cash and bank balances, deposits with banks (including fixed and margin deposits) and financial institutions, as well as credit exposures to customers, including outstanding receivables. Individual risk limits are based on management's assessment on a case-by-case basis. The utilisation of credit limits is regularly monitored.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets as presented in the consolidated statement of financial position.

Risk management

Credit risk is managed on a Group basis. The Group's policy is to place cash and cash equivalents with reputable banks and financial institutions that have average credit ratings with respect to each economy in which the Group operates.

The Group trades only with recognised, creditworthy third parties in addition to establishing credit limits for customers' balances. Receivable balances and credit limits are monitored on an ongoing basis with the result of discontinuing the service for customers exceeding certain limits for a certain period of time. The Group earns its revenues from a large number of customers spread across different geographical segments. However, geographically 66% percent of the Group's Accounts receivable are based in Middle East and Africa. Credit risks limited to the carrying values of financial assets in the consolidated statement of financial position.

Aramex is exposed to risk of loss from climate changes and is implementing processes aimed at monitoring and mitigating those risks, including commissioning across the Group and introducing electric vehicles as part of the "Green Mobility" initiative. Further, sustainability is integrated into its operations at all levels to respond to the dynamic changes occurring globally, regionally, and locally.

At 31 December 2023, the Group had 5 customers (2022: 5 customers) that accounted for approximately 32% (2022: 29%) of all the receivables outstanding.

The Group's investments in debt instruments are considered to be low risk investments. The credit ratings of the investments are monitored for credit deterioration.

aramex

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

3 **Financial risk management** (continued)

- **Financial risk factors** (continued) 3.1
- Credit risk (continued) *(b)*

Impairment of financial assets

The Group has four types of financial assets that are subject to the expected credit loss model:

- accounts receivable,
- debt investments carried at FVOCI,
- cash and bank balances,
- restricted cash, margins and bank deposits, and •
- other current assets. •

While other receivables are also subject to the impairment requirements of IFRS 9, the identified impairment loss was immaterial.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 90 days past due in making a contractual payment.

Definition of default

٠

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either but not limited to the following main criteria are generally not recoverable.

- when there is a breach of financial covenants by the counterparty; or •
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that potential default may occur when a financial asset is more than 365 days after invoice issuance date.

Accounts receivable

The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all accounts receivable and contract assets.

To measure the expected credit losses, accounts receivable have been grouped based on shared credit risk characteristics and the days past due. The impairment loss for accounts receivable is based on assumptions about risk of default and expected loss rates.

The expected loss rates are based on the roll rates of receivables over a period of 12 quarters before 31 December 2023 or 1 January 2023 respectively and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current factors affecting the ability of the customers to settle the receivables.

- **Financial risk management** (continued) 3
- 3.1 **Financial risk factors** (continued)
- *(b) Credit risk* (continued)

Impairment of financial assets (continued)

Accounts receivable (continued)

On that basis, the impairment loss as at 31 December 2023 and 31 December 2022 was determined as follows for accounts receivable:

| 31 December 2023 | Between current – 90 days past due | Between 90 – 180 days past due | Between 180 – 270 days past due | Between 270 – 365 days past due | More than 365 days past due | Total |
|---|---|--------------------------------------|---------------------------------------|--|-----------------------------------|-------------|
| Expected loss rate | 1% | 11% | 30% | 66% | 100% | 8% |
| Gross carrying amount – Accounts receivable in | | | | | | |
| AED'000 Expected credit loss | 998,407 | 81,250 | 33,640 | 15,312 | 56,324 | 1,184,933 |
| in AED'000 | 8,984 | 8,939 | 10,158 | 10,060 | 56,324 | 94,465 |
| Carrying amount in AED'000 | 989,423 | 72,311 | 23,482 | 5,252 | | 1,090,468 |
| | | | | | | |
| 31 December 2022 | Between current – 90 days past due | Between 90 – 180 days past due | Between 180 – 270 days past due | Between 270 – 365 days past due | More than 365 days past due | Total |
| 31 December 2022 Expected loss rate | current – 90 days | - 180 days | - 270 days | 270 – 365 days past | 365 days | Total 8% |
| Expected loss rate Gross carrying amount – Accounts | current – 90 days past due | – 180 days past due | – 270 days past due | 270 – 365 days past due | 365 days past due | |
| Expected loss rate Gross carrying amount – Accounts receivable in AED'000 | current – 90 days past due | – 180 days past due | – 270 days past due | 270 – 365 days past due | 365 days past due | |
| Expected loss rate Gross carrying amount – Accounts receivable in | current – 90 days past due 1% | – 180 days past due 11% | – 270 days past due 49% | 270 – 365 days past due 59% | 365 days past due 100% | 8% |

Accounts receivable are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group, and a failure to make contractual payments for a period of greater than 365 days past due.

Impairment losses on accounts receivable are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

Debt investments carried at FVOCI

All of the entity's debt investments at FVOCI are considered to have low credit risk, and the impairment loss recognised during the year was therefore limited to 12 months' expected losses. Management consider 'low credit risk' for listed bonds to be an investment grade credit rating with at least one major rating agency. Other instruments are considered to be low credit risk where they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

aramex

Financial risk management (continued) 3

3.1 Financial risk factors (continued)

Credit risk (continued) *(b)*

Restricted cash, margins and fixed deposits

During the year ended 31 December 2023 the impairment loss on restricted cash amounted to AED 227 thousand (2022: reversal of AED 1,434 thousand) due to the economic situation in Lebanon as detailed in Note 16.

(c) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents, the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Management aims to maintain flexibility in funding by keeping committed credit lines available.

The management is confident that the current assets are sufficient to cover the current liabilities of the Group. The Group has complied with the financial covenants of its borrowing facilities during the 2023 and 2022 reporting periods (Note 20).

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the reporting period to the contractual maturity date.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

| 31 December 2023 | Less than 3 months AED'000 | Between 3-12 months AED'000 | Between 1 and 2 years AED'000 | Between 2 and 5 years AED'000 | Over 5 years AED'000 | Total contractual cash flows AED'000 | Carrying amount AED'000 |

Financial risk management (continued) 3

3.2 Capital risk management

The Group's objectives when managing capital are to safeguard its ability to continue as a going concern in order to provide returns for its shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Group consists of net debt (interest-bearing loans and borrowings disclosed in note 20 after deducting cash and bank balances) and equity of the Group (comprising share capital, statutory reserve and retained earnings).

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total equity plus net debt. Net debt is calculated as total loans and borrowings (including current and non-current interest-bearing loans borrowings as shown in the consolidated statement of financial position) less cash and bank balances. Total capital is calculated as total equity as shown in the consolidated statement of financial position plus net debt.

The gearing ratios at 31 December 2023 and 2022 was as follows:

| | 2023 | 2022 |
|--|-----------|-----------|
| | AED'000 | AED'000 |
| Interest-bearing loans and borrowings (excluding bank overdraft) | | |
| (Note 20) | 1,115,840 | 1,125,169 |
| Less: Cash and cash equivalents (Note 16) | (564,341) | (627,601) |
| Net debt | 551,499 | 497,568 |
| Equity (comprising share capital, statutory reserve and retained | | |
| earnings) | 3,370,384 | 3,880,667 |
| Capital | 3,921,883 | 4,378,235 |
| Gearing ratio | 14% | 11% |
| | | |

Loan covenants

Under the terms of the major borrowing facilities, the Group is required to comply with the certain financial covenants. The Group has complied with these covenants as of the end of the reporting period.

3.3 Fair value estimation

Fair values of financial instruments

The Group uses the following hierarchy for determining and disclosing the fair value of assets and liabilities by valuation technique:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

During the year ended 31 December 2023 and 2022, there are no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

As at 31 December 2023, items measured at fair value have been measured at level 3 valuation techniques for an amount of AED 17,574 (2022: AED 17,667 thousand), the movement in level 3 is disclosed in Note 12.

aramex

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

3 **Financial risk management** (continued)

Fair value estimation (continued) 3.3

Fair values of financial instruments (continued)

Level 3 valuations are reviewed on a quarterly basis by the Group's valuation team. The valuation team considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques. In selecting the most appropriate valuation model the valuation team performs back testing and considers which model's results have historically aligned most closely to actual market transactions. In order to value level three equity investments, for the year ended 31 December 2023, the Group utilised the same approach as the prior year to obtain the recent transaction price as a fair value measurement of the investment.

Management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the unit to materially exceed its recoverable amount.

4 Key estimates and judgments

Provision for expected credit losses of accounts receivable

Measurement of ECLs is a significant estimate that involves determination methodology, models and data inputs. Details of ECL measurement methodology are disclosed in Note 3.1. The following components have a major impact on credit loss allowance: definition of default, probability of default ("PD"), exposure at default ("EAD"), and loss given default ("LGD"). The Group regularly reviews and validates the models and inputs of the models to reduce any differences between expected credit loss estimates and actual credit loss experience.

The Group uses a provision matrix to calculate ECLs for accounts receivable. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

Management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the unit to materially exceed its recoverable amount.

Useful lives of property and equipment

The Group's management determines the estimated useful lives of its property and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation charge would be adjusted where the management believes the useful lives differ from previous estimates.

The sensitivity analysis calculates the effect of a reasonably possible movement in the useful lives on the consolidated statement of profit or loss: Changes in E.CC.

| | Changes in | Effect on |
|------------------------|--------------|-------------------|
| | useful lives | profit before tax |
| | % | AED '000 |
| Leasehold improvements | +10 | (1,410) |
| Buildings | +10 | (1,623) |
| Furniture and fixtures | +10 | (605) |
| Warehousing racks | +10 | (521) |
| Office equipment | +10 | (2,488) |
| Computers | +10 | (3,810) |
| Vehicles | +10 | (878) |
| | | 42 |

4 Key estimates and judgments (continued)

Hyperinflation

The Group exercises significant judgement in determining the onset of hyperinflation in countries in which it operates and whether the functional currency of its subsidiaries, associates or joint ventures is the currency of a hyperinflationary economy.

Various characteristics of the economic environment of each country are taken into account.

These characteristics include, but are not limited to, whether:

- the general population prefers to keep its wealth in non-monetary assets or in a relatively stable foreign currency:
- prices are quoted in a relatively stable foreign currency;
- sales or purchase prices take expected losses of purchasing power during a short credit period into account;
- interest rates, wages and prices are linked to a price index; and
- the cumulative inflation rate over three years is approaching, or exceeds, 100%. •

Management exercises judgement as to when a restatement of the consolidated financial statements of a group entity becomes necessary. Following management's assessment, the group's subsidiaries Aramex Lebanon S.A.L. and Aramex International Hava Kargo Ve Kerye Anonim Sirketi have been accounted for as entities operating in hyperinflationary economies. The results, cash flows and financial positions of Aramex Lebanon S.A.L. and Aramex International Hava Kargo Ve Kerye Anonim Sirketi have been expressed in terms of the measuring units current at the reporting date.

Aramex Lebanon S.A.L.

The economy of Lebanon was assessed to be hyperinflationary during 2020, and hyperinflation accounting has been applied since. Upon application of hyperinflation, net prior period losses of AED 9,660 were recognised directly in equity during 2023 (2022: losses of AED 4,757 thousand were recognised directly in equity during 2022).

The general price index used as published by the International Monetary Fund is as follows:

| | Base year | General price index | Inflation rate (%) | |
|-------------------|-----------|---------------------|--------------------|--|
| 31 December 2023* | 2023 | 1.44 | 2,005 | |
| 31 December 2022 | 2022 | 1.56 | 1,670 | |
| 31 December 2021 | 2021 | 2.04 | 753 | |

* The cumulative inflation rate over three years as at 31 December 2023 is 2,005% (2022: 1,670%). The average adjustment factor used for 2023 was 1.44 (2022: 1.56).

Aramex International Hava Kargo Ve Kerye Anonim Sirketi

The economy of Turkey was assessed to be hyperinflationary during 2023, and hyperinflation accounting has been applied since. Upon application of hyperinflation, net prior period gain of AED 3,174 thousand were recognised directly in equity during 2023.

The general price index used as published by the International Monetary Fund is as follows:

| | Base year | General price index | Inflation rate (%) | |
|------------------|-----------|---------------------|--------------------|--|
| 31 December 2023 | 2023 | 1.28 | 268 | |
| 31 December 2022 | 2022 | 1.18 | 156 | |
| 31 December 2021 | 2021 | 1.23 | 74 | |

The cumulative inflation rate over three years as at 31 December 2023 is 268% (2022: 156%). The average adjustment factor used for 2023 was 1.28 (2022: 1.18).

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

4 Key estimates and judgments (continued)

Goodwill impairment

The impairment test is based on the "value in use" calculation. These calculations have used cash flow projections based on actual operating results and future expected performance, refer to Note 7 for the additional key assumptions used in calculating the goodwill impairment.

Provision for tax

The Group reviews the provision for tax on a regular basis. In determining the provision for tax, laws of particular jurisdictions (where applicable entity is registered) are taken into account. The management considers the provision for tax to be a reasonable estimate of potential tax liability after considering the applicable laws and past experience.

End of service benefits

In determining the appropriate discount rate, management considers the interest rates of corporate bonds in the respective currency with at least AA rating, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation. The underlying bonds are further reviewed for quality, and those having excessive credit spreads are removed from the population of bonds on which the discount rate is based, on the basis that they do not represent high quality bonds.

The mortality rate is based on publicly available mortality tables for the related countries. Future salary increases are based on expected future inflation rates for the respective country, refer to Note 21 for the actuarial assumptions and sensitivity.

Intangible assets with indefinite lives

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable, refer to Note 8 for the additional key assumptions used in calculating the impairment of the intangible assets with indefinite lives.

Lease extension, termination options and incremental borrowing rate

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated). Potential future cash outflows exceeding the lease term have not been included in the lease liability because it is not reasonably certain that the leases will be extended (or not terminated).

The assessment is reviewed if a significant event or a significant change in circumstances occurs which affects this assessment and that is within the control of the lessee. During the year ended 31 December 2023, no significant events or significant change in circumstances occurred that caused the management to reassess the lease term.

Management has determined the IBR based on the rate of interest per territory that the Group would have to pay to borrow over similar borrowing characteristics for the respective Group entity. Accordingly, management has decided to use a discount rate depending on the Group entities credit portfolio by making adjustments specific to the lease, (i.e., term, country, currency and security) as the IBR for discounting future lease payments.

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

6 Leases (continued)

Right of use assets (continued)

The total cash outflow for leases in 2023 was AED 226,275 thousand (2022: AED 241,039 thousand).

Lease liabilities

| Future minimum lease payments | Interest | Present value of minimum lease payments |
|----------------------------------|--|---|
| AED '000 | AED '000 | AED'000 |
| 221 042 | 44 362 | 176,680 |
| , | | 771,906 |
| 1,286,185 | 337,599 | 948,586 |
| | | |
| 218 858 | 37 171 | 181,687 |
| 1,042,640 | 285,604 | 757,036 |
| 1,261,498 | 322,775 | 938,723 |
| | lease payments AED'000 221,042 1,065,143 1,286,185 218,858 1,042,640 | lease payments Interest AED'000 AED'000 221,042 44,362 1,065,143 293,237 1,286,185 337,599 218,858 37,171 1,042,640 285,604 |

Lease liabilities measured at present value were unwound during the year ended 31 December 2023 for an amount of AED 49,395 thousand (2022: AED 46,343 thousand) where a portion amounting to AED 1,412 thousand was unpaid as of 31 December 2023 (2022: AED 184 thousand).

7 Goodwill

| | 2023 | 2022 |
|---------------------------------|-----------|-----------|
| | AED'000 | AED'000 |
| | | |
| At 1 January | 1,757,680 | 1,002,568 |
| Acquisitions* | - | 790,077 |
| Measurement period adjustment** | (949) | - |
| Exchange differences | (6,540) | (34,965) |
| At 31 December | 1,750,191 | 1,757,680 |

- * On 1 June 2022, the Group entered into an acquisition agreement through a Sale and Purchase Agreement (SPA) to acquire 100% equity securities of "Access Shipping LLC"; a cross-border ecommerce platform, providing cost-effective package forwarding solutions to customers. The excess between the provisional fair value of the groups of assets acquired and the consideration paid amounted to AED 790,077 thousand which was recognised as goodwill (Note 35).
- ** The allocation of the purchase price has been modified during the measurement period, as more information was obtained about the fair value of assets acquired and liabilities assumed. The net impact on Goodwill was a decrease of AED 949 thousand (total net identifiable assets at fair value increased by AED 4,567 thousand while the total final consideration increased by AED 3,618 thousand upon the final collection of the escrow account).

The Group performed its annual impairment test on 31 December 2023 and 2022. The Group considers the relationship between its market capitalisation and its book value among other factors, when reviewing for indicators of impairment.

The recoverable amounts of the cash generating units have been determined based on a value in use calculation using cash flow projections from financial forecast approved by board of directors covering a five year period.

7 **Goodwill** (continued)

The goodwill was allocated to the following groups of cash generating units:

| | 2023 AED'000 | 2022 AED'000 |
|---|-----------------|-----------------|
| Publication and distribution Aramex: * | 6,212 | 6,212 |
| Express shipping** | 1,049,463 | 1,051,604 |
| Domestic shipping | 460,395 | 464,533 |
| Freight forwarding | 161,908 | 162,745 |
| Logistics | 72,213 | 72,586 |
| | 1,750,191 | 1,757,680 |

Aramex is the cash generating unit which includes sub segments related to domestic shipping, express * shipping, freight forwarding logistics.

** As at 31 December 2022, MyUS goodwill of AED 790,077 thousand was disclosed as a separate line within the corresponding disclosure in the prior year consolidated financial statements.

Key assumptions used in value-in-use calculations and sensitivity to changes in assumptions

The calculation of the value-in-use is most sensitive to the following assumptions:

Transaction volumes for the main cash generating units – based on average annual growth rate over the fiveyear forecast period; based on past performance and management's expectations of market development. The terminal value was determined using the fifth year projections adjusted by incorporating the weighted average cost of capital (WACC) and the growth rate.

Discount rates for the main cash generating units – Discount rates represent the current market assessment of the risks specific to each cash generating unit, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segments and is derived from its WACC for the industry is 10% (2022: 9.5%). The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment by the Group's investors. The cost of debt is based on the interest-bearing borrowings the Group is obliged to service. Segment-specific risk is incorporated by applying individual beta factors. The beta factors are evaluated annually based on publicly available market data. Adjustments to the discount rate are made to factor in the specific amount and timing of the future tax flows in order to reflect a pre-tax discount rate.

Growth rate estimates for the main cash generating units – Growth rate used of 3.1% (2022: 3.2%) are based on actual operating results and future expected performance based on current industry trends and including longterm inflation forecasts for each territory of Aramex and MyUS cash generating units, respectively.

Sensitivity to changes in assumptions

Management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the unit to materially exceed its recoverable amount.

* Intangible assets acquired through a business combination. These assets have indefinite useful lives and are tested for impairment annually as they represent an operational system used by the Group entities which is considered to have indefinite useful life. The Group intends to renew the franchise continuously and evidence supports its ability to do so. An analysis of market and competitive trends provides evidence that the franchise will generate net cash inflows for the Group for an indefinite period. Therefore, the franchise is carried at cost without amortisation, but is tested for impairment annually.

The Group performed its annual impairment test on 31 December 2023 and 2022. The Group considers the relationship between its market capitalisation and its book value among other factors, when reviewing for indicators of impairment. As at 31 December 2023, the market capitalisation of the Group was above the book value of its equity. The recoverable amounts of the cash generating units have been determined based on a value in use calculation using cash flow projections from financial forecast approved by board of directors covering a five-year period.

Key assumptions used in value-in-use calculations and sensitivity to changes in assumptions

The calculation of the value-in-use is most sensitive to the following assumptions:

Transaction volumes - based on average annual growth rate over the five-year forecast period; based on past performance and management's expectations of market development. The terminal value was determined using the fifth year projections adjusted by incorporating the weighted average cost of capital (WACC) and the growth rate.

8 Other intangible assets (continued)

Key assumptions used in value-in-use calculations and sensitivity to changes in assumptions (continued)

Growth rate estimates – Growth rate used of 2.4% (2022: 2.3%) is based on actual operating results and future expected performance based on current industry trends and including long-term inflation forecasts for each territory.

Discount rates – Discount rates represent the current market assessment of the risks specific to each cash generating unit, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segments and is derived from its weighted average cost of capital (WACC) for the industry of 9.2% to 9.9% (2022: 9.5% to 9.8%). The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment by the Group's investors. The cost of debt is based on the interest-bearing borrowings the Group is obliged to service. Segment-specific risk is incorporated by applying individual beta factors. The beta factors are evaluated annually based on publicly available market data. Adjustments to the discount rate are made to factor in the specific amount and timing of the future tax flows in order to reflect a pre-tax discount rate.

Sensitivity to changes in assumptions

Management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the unit to materially exceed its recoverable amount.

Non-controlling interests 9

As at 31 December 2023 and 2022, there were no subsidiaries with material non-controlling interest to the Group.

10 Investments in joint ventures

The details of the investments in joint ventures are as follows:

| | | ership entage | Country of incorporation | Nature of activity | Book | value |
|--------------------------|------|------------------|--------------------------|--------------------------------|---------|---------|
| | 2023 | 2022 | | | 2023 | 2022 |

The associates had no contingent liabilities or capital commitments as at 31 December 2023 and 2022.

12 Financial assets at fair value through other comprehensive income

At 31 December 2023, the Group designated investments disclosed in the following table as equity and debt securities at FVOCI. The FVOCI designation was made because the investments are expected to be held for strategic purposes rather than with a view to profit on a subsequent sale, and there are no plans to dispose of these investments in the short or medium term.

12 Financial assets at fair value through other comprehensive income (continued)

For equity instruments at fair value through OCI, gains and losses on these financial assets are never recycled to the consolidated statement of profit or loss. Dividends are recognised as other income in the consolidated statement of profit or loss when the right of payment has been established. Equity instruments designated at fair value through OCI are not subject to impairment assessment. During 2023 and 2022, the Group invested in and disposed of certain shares and securities for strategic and commercial purposes as shown in the following table:

| | 2023 AED'000 | 2022 AED'000 |
|---|-----------------|-----------------|
| As at 1 January | 17,667 | 17,638 |

| At 31 December | 36,676 | 46,038 |

In some countries, the tax returns for certain years have not yet been reviewed by the tax authorities. In certain tax jurisdictions, the Group has provided for its tax exposures based on the current interpretation and enforcement of the tax legislation in the jurisdiction. However, the Group's management is satisfied that adequate provisions have been made for potential tax contingencies.

Implementation of UAE Corporation Tax Law and application of IAS 12 Income Taxes

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (Corporate Tax Law or the Law) to enact a Federal Corporate Tax ("CT") regime in the UAE. The CT regime is effective for annual periods beginning on or after 1 June 2023 and accordingly, it has a current income tax related impact on the consolidated financial statements for the Group starting 1 January 2024.

The Cabinet of Ministers Decision No. 116 of 2022 specifies the threshold of income over which the 9% CT rate would apply and accordingly, the Law is now considered to be substantively enacted from the perspective of IAS 12 – Income Taxes. A rate of 9% will apply to taxable income exceeding AED 375,000, a rate of 0% will apply to taxable income not exceeding AED 375,000, and a rate of 0% will apply on qualifying income of qualifying free zone entities.

Based on the information available to date, the Group assessed the deferred tax implications and concluded that it is not expected to be significant as of and for the year ended 31 December 2023. As certain other cabinet decisions are pending as on the date of the consolidated financial statements for the year ended 31 December 2023, the Group will continue to assess the impact of these pending cabinet decisions on deferred taxes as and when finalised and published. Impact if any, will be accordingly reflected in the Group's consolidated financial statements when such additional information will be substantively issued.

Income tax appearing in the consolidated statement of profit or loss represents the income tax expense of the Group's subsidiaries that operates in taxable jurisdiction. Taxes on income are accrued using the applicable tax rates that would be applicable to the expected total annual profit.

Pillar Two

Aramex Group is regarded as a multinational enterprises groups (MNE) for the purposes of Organisation for Economic Co-operation and Development's (OECD) Pillar Two legislation, which essentially requires MNEs with global turnover of EUR 750 million or over to pay tax at an effective rate of at least 15% in every jurisdiction in which it has Constituent entity(ies) (i.e. entities that are included in the consolidated financial statements of the Group) or JVs. The OECD has been issuing the detailed commentary and administrative guidance during 2023 on the model Pillar Two legislation and the transitional rules (i.e. transitional safe harbour rules), with further guidance, updated commentary and signing of the multilateral instrument (MLI) on the subject to tax rule (STTR) expected during 2024. Pillar Two rules are being implemented in various jurisdictions (including the middle east) based on individual countries' local legislative process in a phased manner from 1 January 2024 onwards. The United Arab Emirates (UAE) Ministry of Finance has indicated that Pillar Two will not apply in the UAE in 2024, and that it will be releasing a public consultation on Pillar Two in Q1 of 2024.

13 Income tax (continued)

Pillar Two (continued)

Aramex Group has been monitoring the progress of the Pillar Two implementation in the jurisdictions in which it operates through Constituent Entities and Joint Ventures. The Group has also appointed advisers to carry out an assessment on the impact of the rules under the Transitional safe harbour rules (briefly these rules provide an option to MNE groups to rely on CBCR reports/data to determine the jurisdictions that pass one of the three tests and therefore not be required to apply a top-up tax in that jurisdiction under the Pillar Two rules).

The impact assessment exercise is being done for the Aramex Group based on latest available CBCR report (FY 2022) filed by the Group in the UAE. The assessment will highlight the jurisdictions that pass the tests and identify jurisdictions that could have top-up tax liability under Pillar Two rules. The calculation of approximate top-up tax liability based on 2022 data needs to be updated/revised based on the recent administrative guidance issued by the OECD in December 2023 which requires certain adjustments to the financial data as reported in the Group's CBC Report to evaluate the safe harbour tests (to clarify, there is no top-up tax liability payable under Pillar Two rules for 2022). This exercise is currently ongoing. The assessment will be updated for the FY 2023 financial data based on CBCR report for 2023. These assessments would then form the basis for the Aramex Group to review its group structure and operations so as to understand and optimise its top-up tax liability within the framework and spirit of Pillar Two legislation, when such legislation will apply to the Group for financial year 2024 onwards. The quantification of actual top-up tax liability under Pillar Two rules will be based on intra-group payments and financial numbers/data for the year 2024 and onwards, when Pillar Two legislation will be in effect for the Aramex Group.

The Aramex Group tax team is closely monitoring the developments on implementation of Pillar Two legislation in the jurisdictions that it operates, along with further guidance that is expected to be issued by OECD in 2024 and the signing status of MLI by various countries for the STTR to apply (MLI signing expected in mid-2024). The Group will be updating the 2022 assessment for 2023 financial data to further refine the impact assessment conducted to date.

14 Accounts receivable, net

| | 2023 AED'000 | 2022 AED'000 |
|---|-----------------|-----------------|
| Accounts receivable | 1,184,933 | 1,226,331 |
| Less: impairment for expected credit losses | (94,465) | (95,921) |
| | 1,090,468 | 1,130,410 |

Geographic concentration of accounts receivable as of 31 December is as follows:

| | 2023 | 2022 |
|--------------------------------------|------|------|
| | % | % |
| Gulf Cooperation Council | 43 | 49 |
| Middle East, North Africa and Turkey | 19 | 12 |
| East and South Africa | 4 | 5 |
| Europe | 11 | 12 |
| North America | 6 | 6 |
| North Asia | 2 | 2 |
| South Asia | 8 | 8 |
| Oceania | 7 | 6 |

As at 31 December 2023, accounts receivable at nominal value of AED 94,465 thousand (2022: AED 95,921 thousand) were impaired. Movement on expected credit losses was as follows:

| | 2023 | 2022 |
|-----------------------------|----------|----------|
| | AED'000 | AED'000 |
| At 1 January | 95,921 | 92,044 |
| Charge for the year, net | 19,812 | 17,532 |
| Amounts written-off | (18,153) | (10,156) |
| Acquisition of a subsidiary | - | 3,898 |
| Foreign exchange | (3,115) | (7,397) |
| At 31 December | 94,465 | 95,921 |

See Note 3.1b on credit risk of accounts receivable, which explains how the Group manages and measures credit quality of accounts receivable that are neither past due nor impaired.

18 Reserves

Statutory reserve

In accordance with the Company's Articles of Association and the UAE Federal Decree Law No. (32) of 2021, 10% of the net profit for each year is required to be transferred to a statutory reserve. Such transfers may be ceased when the statutory reserve equals half of the paid-up share capital of the applicable entities. This reserve is non-distributable except in certain circumstances. The consolidated statutory reserve reflects transfers made post-acquisition for subsidiary companies together with transfers made by the Parent Company. It does not, however, reflect the additional transfers to the consolidated statutory reserves which would be made if the retained post-acquisition profits of the subsidiaries were distributed to the Parent Company.

Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the consolidated financial statements of foreign subsidiaries.

Reserve arising from acquisition of non-controlling interests

The reserve represents the difference between the consideration paid to acquire non-controlling interests and the carrying amount of those interests at the date of acquisition.

Reserve arising from other comprehensive income items

Reserve arising from other comprehensive income items comprise of the following reserves:

Fair value reserve of financial assets at fair value through other comprehensive income

The fair value reserve of financial assets at fair value through other comprehensive income is used to record the differences arising from the fair valuation of the Group's financial assets at fair value through other comprehensive income.

| 2023 AED'000 | 2022 AED'000 |

(a) Term loans

Syndicated loan

On 23 April 2019, Aramex PJSC entered into a new 5 year revolving credit facility agreement with a syndicate of banks comprising of HSBC Bank Middle East Limited, CITIBANK, N.A, Emirates NBD Bank PJSC, First Abu Dhabi Bank PJSC and DBS Bank LTD (DIFC Branch). The rate of interest on each loan for each interest period is the percentage rate per annum which is aggregate of the applicable margin and SOFR. The total limit of this facility is USD 200 million (equivalent to AED 735 million), the total balance utilised as at 31 December 2023 is nil (2022: nil). The purpose of this facility is to fund capital expenditure and working capital requirements including permitted acquisitions. The loan is secured by corporate guarantee extended by Aramex PJSC, Aramex Abu Dhabi LLC, Aramex Emirates LLC, Aramex International LLC, Aramex Hong Kong Limited, Aramex Int'l Egypt for Air & Local Services (Egypt), Aramex Saudi Limited Company, Aramex UK Limited, Aramex Doha WLL and Aramex International Limited (Kuwait).

HSBC loan (1)

During 2022, Aramex Fastway refinanced a 5 year term loan agreement with HSBC Bank Australia that matured in January 2022. The total loan amount is AED 83.2 million (AUD 28.7 million) bearing annual interest rate of AUD (BBSY) plus a margin of 2.1% p.a. The term loan is repayable in 20 consecutive quarterly instalments, the first instalment was due on 31 March 2021. The purpose of the loan is to finance capital expenditure of the Group or general corporate purposes of the Group. The loan is secured by corporate guarantee extended by Aramex PJSC.

HSBC loan (2)

During 2022, Aramex New Zealand refinanced a 5 year term loan agreement with HSBC Bank New Zealand that matured in January 2022. The total loan amount is AED 85 million (NZD 31.62 million) bearing annual interest rate of NZD (BKBM) plus a margin of 2.1% p.a. The term loan is repayable in 20 consecutive quarterly instalments, the first instalment was due on 31 March 2021. The purpose of the loan is to finance capital expenditure of the Group or general corporate purposes of the Group. The loan is secured by corporate guarantee extended by Aramex PJSC.

Acquisition Financing – MyUS Syndicated loan

On 5th of August 2022, Aramex UK and Aramex USA entered into a new 5 year credit facility agreement with a syndicate of banks comprising Emirates NBD Bank PJSC and First Abu Dhabi Bank PJSC. The purpose of this facility is to fund MyUS acquisition. The loan is secured by corporate guarantee extended by Aramex PJSC, Aramex Abu Dhabi LLC, Aramex Emirates LLC, Aramex Hong Kong Limited, Aramex Int'l Egypt for Air & Local Services (Egypt), Aramex Saudi Limited Company, Aramex UK Limited, Aramex Doha WLL, Aramex International Limited (Kuwait), Aramex USA and MyUS. The financing arrangement of the loan has been agreed to be drawn in GBP and USD currencies with interest rates as detailed below:

- The loan was drawn by Aramex UK on 14th October 2022 from Emirates NBD Bank PJSC. The (1) amount drawn under the facility is GBP 53.825 million (AED 239.2 million) bearing a quarterly interest rate which is the aggregate of the over-night SONIA daily rate compounded in arrears plus a margin of 1.25% p.a.
- The loan was drawn by Aramex UK on 17th October 2022 from Emirates NBD Bank PJSC. The (2) amount drawn under the facility is USD 50 million (AED 183.6 million) bearing a quarterly interest rate which is the aggregate of the over-night SOFR daily rate compounded in arrears plus a margin of 1.35% p.a.

Interest-bearing loans and borrowings (continued) 20

(a) *Term loans* (continued)

Acquisition Financing – MyUS Syndicated loan (continued)

The loan was drawn by Aramex USA on 17th of October 2022 from First Abu Dhabi Bank PJSC. The (3) amount drawn under the facility is USD 150 million (AED 550.9 million) bearing a quarterly interest rate which is the aggregate of the over-night SOFR daily rate compounded in arrears plus a margin of 1.35% p.a.

There were several financial covenants attached to the interest-bearing loans and borrowings. The Group's subsidiaries complied with financial covenants as of 31 December 2023.

On 6 October 2023, the Group made an early settlement in the amount of GBP 5 million as principal (AED 23.5 million) and interest in the amount of GBP 71 thousand (AED 319 thousand) under Facility B issued under the agreement.

Others

Term loans also include a number of loans obtained by Group with a balance of AED 2 million to finance their operating activities. These loans carry interest at commercial rates, are repayable in regular instalments and are subject to covenants consistent with the Group's borrowing policies. The loans are secured by corporate guarantees extended by various Group's subsidiaries.

The principal instalments payable after 2023 for long-term loans as of 31 December 2023 are as follows:

| | AED'000 |
|-----------------|-----------|
| Year | |
| 2024 | 47,176 |
| 2025 | 11,926 |
| 2026 | 45,883 |
| 2027 | 48,881 |
| 2028 thereafter | 960,076 |
| | 1,113,942 |

21 Employees' end of service benefits

Movements on provision for employees' end of service benefits were as follows:

| | 2023 AED'000 | 2022 AED'000 |
|--|-----------------|-----------------|
| At 1 January | 164,136 | 148,822 |
| Provided during the year | 33,758 | 35,066 |
| Paid during the year | (25,997) | (20,417) |
| Reclassification during the year | - | 1,800 |
| Discontinued operations | (13) | (22) |
| Actuary valuation through other comprehensive income | 119 | (172) |
| Exchange differences | (2,035) | (941) |
| At 31 December | 169,968 | 164,136 |

Principal assumptions used in determining benefit obligations for the Company are shown below:

| | 2023 % | 2022 % |
|-------------------------------|------------|-----------|
| | - / | |
| Discount rate | 5.4 - 8.28 | 4.55 - 8 |
| Salary increase rate | 3.3 - 8.5 | 3.30 - 6 |
| Normal retirement age (years) | 64 | 64 |
| | 2023 | 2022 |
| | AED'000 | AED'000 |
| Current service cost | 21,050 | 20,323 |
| Past service cost | 1,299 | - |
| Finance cost | 7,113 | 2,750 |
| | | 61 |

aramex

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

21 Employees' end of service benefits (continued)

The expected maturity analysis of undiscounted employee benefits obligations is as follows:

| | 2023 AED'000 | 2022 AED'000 |
|---------------------|-----------------|-----------------|
| Less than 1 year | 18,647 | 19,750 |
| Between $1-5$ years | 50,918 | 51,873 |
| Over 5 years | 177,044 | 143,055 |
| | 246,609 | 214,678 |

A quantitative sensitivity analysis for significant assumptions on the defined benefit obligation as at 31 December 2023 and 31 December 2022 is, as shown below:

| 51 December 2025 and 51 December 2022 is, as shown below. | Impact on defined benefit obligation | |
|---|---|---------|
| | 2023 | 2022 |
| | AED'000 | AED'000 |
| Discount rate: | | |
| 0.5% increase | (660) | (862) |
| 0.5% decrease | 635 | 315 |
| Salary increase rate: | | |
| 0.5% increase | 636 | 316 |
| 0.5% decrease | (666) | (868) |

The sensitivity analyses above have been determined based on a method that extrapolates the impact on the defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analyses are based on a change in a significant assumption, keeping all other assumptions constant. The sensitivity analysis may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation of one another.

22 Accounts payable

Accounts payable mainly include payables to third party suppliers against invoices received from them for line haul, freight services, handling and delivery charges.

23 Bank overdrafts

The Group maintains overdrafts and lines of credit with various banks. Overdrafts and lines of credit include the following:

| | 2023 AED'000 | 2022 AED'000 |
|-------------------------------------|-----------------|-----------------|
| | | |
| Aramex Algeria S.A.L (Citibank) | 2,240 | - |
| Aramex Tunisia (Arab Bank) | 608 | 1,520 |
| Aramex International LLC (HSBC) | - | 72,222 |
| Aramex Special Logistics (Citibank) | - | 57,611 |
| | 2,848 | 131,353 |
| | | |

These overdraft facilities are secured by corporate guarantees extended by various Group's subsidiaries.

24 Provisions

Movements in provisions are as follows:

| | AED'000 |
|-------------------------------------|----------|
| Carrying amount at 1 January 2022 | 85,007 |
| Provided during the year | 22,484 |
| Reversed during the year | (23,081) |
| Paid during the year | (8,968) |
| Exchange differences | (4,062) |
| Carrying amount at 31 December 2022 | 71,380 |
| Provided during the year | 27,691 |
| Reversed during the year | (35,899) |
| Paid during the year | (15,887) |
| Exchange differences | 389 |
| Carrying amount at 31 December 2023 | 47,674 |

The above provisions primarily relate to legal and other claims.

25 Other current and non-current liabilities

| (A) Other current liabilities | 2023 AED'000 | 2022 AED'000 |
|--------------------------------------|-----------------|-----------------|
| Accrued expenses | 420,961 | 479,095 |
| Sales tax and other taxes | 69,083 | 64,682 |
| Customers' deposits | 20,255 | 21,998 |
| Deferred revenue | 15,304 | 23,153 |
| Social security taxes payable | 6,402 | 6,478 |
| Others * | 127,834 | 125,445 |
| | 659.839 | 720.851 |

* As at 31 December 2023, the Group has had other liabilities related mainly to cash on delivery collected by the Group on behalf of the customers, amounting to AED 53,468 thousand (2022: AED 60,738 thousand) (Note 16).

| (B) Other non-current liabilities | 2023 AED'000 | 2022 AED'000 |
|---|-----------------|-----------------|
| Deferred income * Employees' benefit liability | 13,002 | 15,035 925 |
| 1 5 5 | 13,002 | 15,960 |

* In August 2021, the Group entered into a license and a software agreement and deed of termination for an amount of AED 19,587 thousand, which was recognised as deferred income and is being amortised over the contract term of 10 years considered as a termination to the old contract and an advance to the new arrangement. An amount of AED 2,033 thousand was amortised during the year and recognised in the consolidated statement of profit or loss (2022: AED 3,270 thousand). The accumulated amortisation as of 31 December 2023 is AED 6.585 thousand.

Deferred income is classified in non-current liabilities and is credited to the consolidated statement of profit or loss on a straight-line basis over the contractual period.

26 Rendering of services

| | 2023 AED'000 | 2022 AED'000 |
|-----------------------|-----------------|-----------------|
| International express | 2,295,412 | 2,248,885 |

33 Segmental information

A business segment is a group of assets and processes that jointly engage in the rendering of products or services subject to risks and rewards that are different from those of other business segments, and which are measured according to reports used by the Group's chief operating decision maker.

The chief operating decision maker who is responsible for allocating resources and assessing performance of the operating segments has been identified collectively as the Group's executive directors, the chief operating decision maker examines the Group's performance both from a product and geographic perspective and has identified four reportable segments of its business:

- Courier: includes delivery of small packages across the globe to both, retail and wholesale customers, and express delivery of small parcels and pick up and deliver shipments within the country, and related royalty and franchise levies.
- Freight forwarding: includes forwarding of loose or consolidated freight through air, land and ocean transport, warehousing, customer clearance and break-bulk services.
- Logistics: includes warehousing and its management distribution, supply chain management, inventory management as well as other value-added services.
- Other operations: includes visa services, publication and distribution services. -

Management monitors the operating results of the operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on gross profit.

Transfer prices between operating segments are on an arm's (length basis in a manner similar to transactions with third parties).

The following table presents revenue and profit information for each of the Group's operating segments for the years ended 31 December 2023 and 2022, respectively.

Courier segment includes international express, domestic express, and operations of Access Shipping * LLC ("MyUS").

** Revenues are being recognised over time, when the services are rendered.

Transactions between stations are priced at an arm's length basis. All material intra group transactions have been eliminated on consolidation. The Group does not segregate assets and liabilities by business segments and, accordingly, such information is not presented.

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

33 Segmental information (continued)

There are no customers accounting for more than 10% of total revenue for the years ended 31 December 2023 and 2022.

Comparative figures were reclassified between operating segments to match the current presentation of the segment reporting which has changed during the current period to help the chief operating decision maker take the right decisions for business growth in the future. There is no impact on the consolidated statement of profit or loss as a result of this change.

Geographical segments

The business segments are managed on a worldwide basis, but operate in eight principal geographical areas, Gulf Cooperation Council, Middle East, North Africa and Turkey, East and South Africa, Europe, North America, South Asia, North Asia and Oceania. In presenting information on the geographical segments, segment revenue is based on the geographical location of customers. Segments assets are based on the location of the assets.

Revenues, assets and liabilities by geographical segment are as follows:

* Non-current assets for this purpose consist of property and equipment, other intangible assets, right of use assets, financial assets at fair value through other comprehensive income and investments in joint ventures and associates. Goodwill is allocated to business segments (Note 7).

34 **Commitments and contingencies**

| 2023 | 2022 |
|---------|---------|
| AED'000 | AED'000 |
| 143,414 | 162,881 |
| | AED'000 |

Guarantees are issued by banks on behalf of the Group.

Capital commitments

As at 31 December 2023, the Group has capital commitments of AED 17 million (2022: AED 18 million) towards purchase/construction of property and equipment.

Legal claims contingency

The Group is a defendant in a number of lawsuits amounting to AED 97,581 thousand representing legal actions and claims related to its ordinary course of business (2022: AED 118,376 thousand). Management and its legal advisors believe that the provision recorded of AED 16,282 thousand as of 31 December 2023 is sufficient to meet the obligations that may arise from the lawsuits (2022: AED 39,217 thousand).

35 Acquisition arrangement

Acquisition of Access Shipping LLC

Purchase consideration and identifiable net assets acquired

The acquisition has been accounted for using the acquisition method of accounting and, accordingly, assets acquired, liabilities assumed, and consideration exchanged were recorded at provisional fair value on the acquisition date. The provisional fair value of assets and liabilities have been determined by management.

The purchase consideration has been allocated to the acquired assets and liabilities using their provisional fair values at the acquisition date. The computation of the purchase consideration and its allocation to the net assets of the Acquired Company is based on their respective provisional fair values as of acquisition date.

The allocation of the purchase price has been modified during the measurement period, as more information was obtained about the fair value of assets acquired and liabilities assumed. The net impact on Goodwill was a decrease of AED 949 thousand (total net identifiable assets at fair value increased by AED 4,567 thousand while the total final consideration increased by AED 3,618 thousand upon the final collection of the escrow account).

| Purchase consideration | (944,442) | (940,824) |
| Goodwill (Note 7) | 789,128 | 790,077 |

Impact of the acquisitions on the results of the Group

Acquired receivables

The fair value of acquired trade receivables is AED 7,847 thousand. The gross contractual amount for trade receivables due is AED 7,847 thousand, with a loss allowance of AED nil recognised on acquisition.

35 Acquisition arrangement (continued)

Assets acquired and liabilities assumed (continued)

Separate identifiable intangible assets for acquisitions

As at the acquisition date the provisional fair value of the separate identifiable intangible assets arising out of the acquisition amounted to AED 98,398 thousand. This fair value, which is classified as level 3 in the fair value hierarchy, was determined using the following valuation techniques:

- Relief from royalty valuation technique for the brand-based intangible asset. •
- Multi-year excess earnings method (MEEM) valuation technique for contract-based intangible assets ٠ relating to customer relationships (B2B and B2C).
- Cost to create valuation technique for the software-based intangible asset. •

The valuation of the intangibles assets as well as the discount rates applied were determined by management.

The significant unobservable valuation inputs used were discount rates of 11% and terminal growth rates of 3%.

The assumptions used in arriving at projected cash flows were based on past experience and adjusted for any expected changes.

Post-combination expenses

The Group has entered into a deferred proceeds agreement in the amount of AED 26,496 thousand with executive management of MyUS who held a minority share interest in the Acquired Company prior to the acquisition. The payout of the deferred proceeds is based on the number of shares held and key performance indicators met relating to achieving target revenues and earnings before interest, taxes, depreciation, and amortisation for 2023 and 2024 calendar years. The payout is contingent upon continuing employment and will be expensed in the post-combination period. During the year ended 31 December 2023, the Group settled AED 10,625 thousand of the deferred proceeds, and the outstanding contingent balance as of that date is AED 15,871 thousand.

ARAMEX PJSC AND ITS SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS **31 DECEMBER 2023** (continued)

36 Financial instruments by category (continued)

For the purpose of the financial instruments disclosure, non-financial assets amounting to AED 130,887 thousand (2022: AED 129,253 thousand) have been excluded from accounts receivable and other current assets. Non-financial liabilities amounting to AED 28,305 thousand (2022: AED 38,188 thousand) have been excluded from accounts payable, income tax provision, accrued expenses, provisions, and other non-current and current liabilities.

The fair values of the Group's financial assets and financial liabilities carried at amortised cost at the end of reporting period approximate their carrying values. The fair values of the Group's loans and borrowings approximate the carrying amount, as the interest on the borrowings are provided based on the market rates.

39 Event after the reporting period

On 15 December 2023, the Group entered into an acquisition arrangement through a Business and Asset Sale Agreement ("BASA") to acquire "Aramex (Melbourne)"; a regional franchise of a courier and freight logistics business for a consideration value of AED 22.3 million. The acquisition was finalised on 30 January 2024. The Group considers this a non-adjusting subsequent event.
